## 2010 NHS Golf Season Underway

With only two athletes out for golf, the 2010 Nashua High School golf team is small but very experienced. Senior Dustin Kelm is beginning his fourth year of high school golf. Kelm is hoping to better his 14<sup>th</sup> place finish at the 2009 State C Golf Tournament. Kelm started out the season at the Wolf Point meet placing 10<sup>th</sup> shooting a 91 and qualifying for the state meet in May. Darbi Borgen, junior, has qualified for the state meet during her first two years of golf. Borgen, who was just out of the top 15 at the state meet last year, has not participated in a meet due to illness. The next meet for the golfers, who are coached by Mrs. Fisher, will be in Scobey on April 27<sup>th</sup>, and they will host their own tournament in Glasgow on April 30<sup>th</sup>.

## First Grade Incubates Eggs

The first grade had been waiting for some spring arrivals. The incubator was full of chicken eggs and 6 African geese eggs. The eggs had to incubate for 21 days, and the first graders helped candle the eggs.

Finally, the chicken eggs hatched on Monday the 19<sup>th</sup> of April. They are still waiting on the African geese eggs.

The first graders would like to thank Judy Rorvik for the chicken eggs.

**Earth Day** \_\_\_\_\_ from page 1

April 22 is the United States' Earth Day, there is also a World Environment Day every June 5.

In preparation for Earth Day, the class was given time to make a PowerPoint presentation, a song, or a poster. The class was split into groups and chose the project they wished to do. The presentations contained ways to save the environment including saving water, saving energy, and reducing the use of everything.

A PowerPoint presentation was created by Ricky Kelm, Shawna Lipp, and Taylor Trang to show the rest of the science classes the importance of Earth Day.

Environmental Science student Tabetha Boushey learned from the presentations that today is the 40<sup>th</sup> anniversary of Earth Day and that for every 25 miles you don't drive, you save a pound of pollution.

Colorful posters were made by Shae Stein, Rachel McMurry, Alexa Barnes, and Tabetha Boushey. Dillon Fisher, Anthony Bengochea, and Wes Sibley wrote a very interesting song and performed it for the school during morning announcements.

"Celebrating Earth Day made me remember how important our earth is and how we should take care of it more than we do," commented Alexa Barnes.
